THE above are First Class, justly papellar, and prompt paying companies. They invite investigation into their condition and sollett business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but five squals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below pay, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panic, as the experience of the past tendens; to become almost, if not entirely, valueless. And whils there are Companies entering the field of competition, woll calcustations of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital twice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Polleics issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a cartainty given instead of an ancertainty. All losses promptly adjusted and paid. CAPITAL AND SCRILOS, - -

THE above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit bushess entirely upon their real merits. In point of solvency and reliability and honorshe dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more ruitable and pornament than railroad, bunk, and other stocks, which are subject to the fluctuations of the market, and limble, in times of panie, as the experience of the past tenehes, to become almost, if not cutirely, valueless. And while there are Companies entering the field of compatition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cash surplus on head sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital twice the amount, and innost insances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for ilberal patronage.

Policies issued without delay, and furms risks for a series of years taken at less rutes then can be done by Mutual Companies, and a certainty all stated and paid.

Whee-Tall that T. B. Wooliseroff, which were approved, and higher licenses granted. Ald. Tailman voting in the negative.

The finance committee reported in favor challowing R. T. Lawton to withdraw his research and itemize it. Leave granted,

the Mayor presented the report of the the top over of the names of the persons of Mar Sector in the city without a Heouse. The of three persons, it was stated, had dis continued the sale; several others had apthis for were preparing to apply for a license, and the number of those selling in violation of the law is quite small.

Ald. Bate (moved that the city attly prose cate, under the state statute, every person softling without a license.

The council their adjourned.

Janesville, May 12, 1860.

as the lations of the Dally Dazette: We desire through your paper to call the attention of the citizens and tax payers of Jamesville, to the subject of the confession of judghment, by the city in favor of cred-

itor: applying for the same, On the 5th day of May, we presented, to the common council for judgment, orders to the amount of \$270. The committee ofter an examination of the orders, reported to the conneil that they were correct, and, recommended that the city give us judgment. In the same report and recommendution, the committee reported a number of similar orders to the amount of over \$2,100. payable to various persons, represented

by Mr. Sleeper as their attorney, also recomnotating that the city give judgment upon The council first divided the report, and by a vote of five against two ordered that judgment be allowed to pass for the \$2,400,

to the various holders thereof; those voting In favor were Ald. Bates, Shelton, Smith and Pease; those voting in the negative were Ald, Tallman, Bloton and Pearce.

It was then moved that we have judgment upon one orders, which was lost by a vote of 5 to 2. All the aldermen present except Mesars, Bates and Pease voting against the motion. Messes, Shelton and Smith shifting their position.

Now, sir, here is a fair statement of the facts, and feeling as we do, that injustice and partiality has been shown by members of the council, we protest as tax payers and April 20th, 1860.

auch proceedings. If it was wise in the council to refuse us judgment we beg leave to say we enunat discover it. We offer to pay the cost of obtaining the judgments, BOOT, SHOE OR GAITER. which was not done by the persons holding the \$2,400. We have this day commenced several suits against the city upon all the orders, amounting to nearly \$500; and shallcompel judgments with a large addition of costs. This mode of procedure could have been avoided, were we treated as all others making such applications have been.

In conclusion, Messrs. Editors, we desire to state without boasting, that we have always striven to conduct ourselves as law and order men, always paying cheerfully our taxes for the support of the government, which we believe to be the duty of every good citizen.

We cannot look upon the whole proceedings in any other light than that of proscription and partiality, and regret exceedingly, having humbled ourselves so far as making another application to the conneil, last night. We did so, at the carnest request of the Mayor, and also wishing to save the city expense. All of which has Chicago during the republican convention to be borne in all cases by the tax paying portion of our community.

#### Respectfully yours, McKEY & BRO'S.

Palmer's Drug and Tea Store.

We have, for several years past dealt largely in Burning Piull, and have always, thus fire the temes, in any improvements made in its manufacture. Nearly a year ago, in an appeal in favor of its more general use, based upon the fact that the raw material from which it is made, is mainly the product of our own farms, we publicly aumounced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, as now made by those who understand the business in which they are engaged. That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of gallons to consumer in this city and viciaity, and if our assumption was an erroneous one, it would undoubtedly have been discovered are this.

We are prepared to submit our Phad to any test the public may call for, satisfied that, with ordinary ene, no safer, better or more agreeable light can be produced. As we are indebted to no travoling "Prov. SECOND CONGRESSIONAL DISTRICT: J. Allen Barber, of Grant. THIRD CONGRESSIONAL DISTRICT: H. Lindeman, of Jefferson.

## Judgments against the City.

The vote in the common council last eve ning seems to determine the question whether that body will authorize the confession of judgments on unpaid orders issued under the charter. We regret that a majority of the council have come to this decision, as we regard their action hostile to the best interests of the city. In the revision of the charter, this spring, some provision ought to have been made for funding the floating debt of the city; but as this remedy was not provided, a judgment seems the only way of compelling payment of an unquestioned and unquestionable indebtedness. We say "unquestionable indebtedness," for we have heard but one defence suggested, and that leads directly and inevitably to repudiation, or a total failure to meet the current expenses of the city. If, as has been asserted the orders outstanding, or any portion of them, have been issued upon overdrawn funds, and he see are illegal and void, a successful defence upon that ground is repudiation, and nothing else. Or if the outstanling debt is to be paid from the avails of future taxes, what, in the meantime, is to become of the indispensable and unavoidable current expenses? We do not believe that a pleainvolving repudiation would be successful; or if it could be made successful, that the people of the city would justify the officers in interposing it. The refusal of the council to put into judgment orders held by our citizens, when requested to do so, will naturally lead other holders to adopt the same course pursued by the Messrs. McKey-i. c. commence suits upon them, and add a heavy bill of costs to the already existing debt. Very likely, most of the orders are held by persons in the situation of innocent holders, who can undoubtedly maintain a legal as well as equitable claim upon them. It really seems to us that the best policy of the city, under existing circomstances, is to put into judgment, with as little cost as possible, every order which shall be presented for that purpose. This would, of course, make a heavy tax next fall; but if there is any good reason why the city should not pay its debts as prompily as individuals, we do not know what that reason is. The orders issued by authority of the council are so many evidences of a just and admitted indebtedness, and it

We hope this matter will be given that intrinsic importance and justice demands, and that the tax-payers of the city will not ultimately be compelled to pay a large amount of costs in addition to a sufficiently burdensome debt. We do not impeach the motives of the members of the council issue; but we are firm in the belief that the made well at vote last night will result disastrously, if a ken care of. Those went productive work as afford us, in the long run, the greatdifferent course is not adopted, or some satisfactory provision made for paying, or putting in the way of certain payment, the orders now outstanding, without diverting from their legitimate use the means furnished for the necessary current expenses of the

that indebtedness now that payment has al-

ready been too long delayed.

# Institute for the Blind.

This institution is situated just outside of this city, upon the bank of Rock river, and overlooking a great extent of beautiful prairie and woodland country, having a splendid er. We spent a pleasant forenoon, yesterday, in visiting it. Mr. Churchman, the efficient principal, has every thing in excellent order, both inside of the institution, and outside in the grounds and surroundings of the building. It is a fine location and is being fitted up as fast as means appropriat- Monday of last week, a German named Aned by the state will permit. The mode of instruction is of the most each pursuits as their capacities will permit, so as to enable them to earn a livelihood for themselves when they leave the institution. Great attention is paid to music, in which the blind generally excel. The whole school take lessons in music, oral and instrumental, under the charge of Mr. Allen. who appears to be very well qualified for his position. We heard some charming songs from the young ladies, accompanied by the piano.

We have not time nor space at present to speak of the literary instruction and the peculiar manner of teaching the blind .--Some time we intend to devote a column to time we would say to all who desire to spend an hour most agreeably, to visit the Institution for the Blind.

MANURING FRUIT TREES AND SMALL FRUITS.—Do not apply stimulating manure like guano, to fruit trees during spring or summer. If at any time, choose the full or early winter when guano may be used by who desire it, and before the young sponigales start in the spring the guano will be disseminated through the soil, and will not injure the young roots, as it surely will in early spring or summer. Fruit trees do not require either barn yard manures or guano, but a full supply of inorganic food. Old mortar is an excellent fertilizer for apples with occasional slight doses of wood ashes in summer and phosphates in early spring. The lime and salt mixture, when properly made so as to contain no free salt. may occasionaly be given with profit. Each of the above may be applied in turn, but not at the same time; if top-dressed, they will find their way into the soil by dews and rains, and as they are volatile, no loss

can occur from such practice. Peach, plum, apricot, and nectarine, are benefited by decomposed swamp muck, wood-earth, river-mud, &c., with slight quantities of phosphates and ashes. Pears require phosphates in spring, and wood ashes or diluted potash water in summer, before the fruit is more than balf size; this will insure the proper color and keep the trees in full vigor. Cherries alone will benefit by sparing and occasional deses in early spring Cherries alone will benefit by of very dilute barn yard liquor. The and salt mixture should never be used with cherries. Small doses of lime and potash will give them their chief inorganic requirements. Grapes want phosphates and potash, except at the time of summer rest, when both fruit and interals cease for a time to grow; then water freely with liquid mannres or guano water for four days, and follow with dilute potash water; this will push them past the summer rest, and insure a fine bloom with early ripening.

A week in the time of ripening the Isaclia may be thus gained. Blackberries, raspberries, and indeed all the brambles are rank feeders, and require heavy doses of organic manures; these are among plants what hogs are among animals, they cannot be surfeited. Strawberries require phosphates, potasa, soda, and organic manures and particularly such as will furnish tannic acid. A watering with bark liquor, very dilute, benefits them materially near the time of fruiting.

PLANTING SHRUBBERY.-Too little attention, it seems to us, is given to this feature of ornamental planting. Our rural improvers generally persist in setting out iber trees, in rows like an orchard, all over their grounds, and finishing off their work by putting a lilac or a few rose bushes around the doorway. Well, this is better than nothing. But an improvement can be made in this, as the following hints may

Let the forest trees-except on large pla ces—be few in number, and confined mostly to the boundaries of one's premises.— The trees near the house should be of a smaller size, and such as have smooth trunks and branches. A few shrabs may be set near the dwelling. If the premises are small, like most village lots, single specimens of large shrubs may be set on the lawn and trained up as miniature trees .-Shrubs may also be planted in groups and masses, arranging them according to their respective heights. They may also be used as screens to hide disagreeable objects, or to conceal one part of the grounds from the other. They appear very well, also, when tral heds being occupied by plants, and the boundaries set with shrubs, the lowest in front and the highest in the rear.

As belts to conceal from the house the outer fence of one's grounds, they are also useful. The pleasure walks may be led around in front of these belts, and so afford is no good defence against the payment of a pleasant view of them all through the season. If they are set here, instead of

lawn appears larger, and every way better.

A good assortment of shrubs will afford attention and considerate action which its one a variety of flowers nearly all the summer, and that with far less trouble than any other class of plants. We will here mention a few of the desirable sorts of plants Azaleas, in variety: Pyrus japonica; Robina; Spire; Deutzia; Euonymus; Hibiscus; Hydrangea; Philadelphus; Syringa; Viburum; Weigelia, etc. A shrubbery is Viburum; Weigelia, etc. A shrubbery is a permament affair, one of the "institutions" whose action has brought the question to an of a country place, and should therefore be the outset, and afterwards taest satisfaction. — America:

ALARMING ACCIDENTS FROM POISONS .-The entire family of J. H. Beaumont, of Freeport, were poisoned on Sunday last by partaking of some poisonous substance in their dinner, which consisted of baked beans, bread and butter, and custard pie. The beans were cooked the day previous, and had been used at breakfast, and they were placed in the stove oven in the summer kitchen, to keep warm till dinner. The house was alone during morning church service. At dinner all ate of the beans and all were soon taken with violent purging and vomiting, and the most severe pains throughview of Janesville and the valley of the riv-er. The owner of the team, meanwhile, lay in the bottom of the wagon dead drank, escaping unburt, not awakening until an hour or two afterwards, when, all unconscious of the terrible catastrophe, he began cursing at the stopping of the team. The man who was killed was sitting upon a keg, which contained not only nails, but a package of gunpowder, which, however, did not explode. Strangely enough, no mark or trace of the thunderbolt could be found, except

A small, clean potato, with the end cut off, is a very convenient medium for applying brickdust to knives, keeping it about the right moisture, while the juice of the potato assists in removing stains from the surface. "Well, my dear," I replied—I am very careful to put in all the little expletives on

washing days, having found them to serve admirably as mollifiers at such times—"I will see about it." I had not quite finished reading my mor-

"I wish you was," arose to my lips, but I

didn't speak it."
"Well," replied my wife, "I've done all I can about it, unless I am expected to draw the box, and fix it. I expect every day that I shall have to do such work. A woman's life is hard enough at the best, but a little additional service would not hurt her I dare say. Perhaps in the intervals of house-hold duties, she might take in jobs of pumpmending. I said nothing.

"Mr. Blif kins," said my wife, " will you see to the pump?"

This was said in a tone that completely over came the horror awakened by the easualty, and throwing the paper aside, I proceeded ew drops only the nose, and as I plied the handle, the pump gave forth a rumbling sound, as the t was surly in its refusal to yield the accus-

tomed supply.

"This is a pretty state of things, for washing day," said my wife.

"Well, my dear," said I, "I do not see how you can blame me for it; thou canst

not say I did it." I immediately essayed to take out the box. The screws that secured the top were rusty

and refused to tern.
"Mrs. Blifkins," said I, "where's the bammer ?"

"How should I know where the hammer is?" she raplied, "it is probably where you used it; you leave everything for me to take core of. My father used to say 'a place for everything and everything in its place.' I wish all men were as particular.'

I remembered that I had used the hambefore, and proceeding to the spot I found t rusty and dirty, lying just where I had eft it. A system like this, closely followed, would prove of immense advantage, for memory of where an article was used would immediately suggest the spot where it was to be found. Returning to the kitchen I commenced work. The rusty threads of the screw refused persistently to yield, but patience wins, and after a half hour's sweating and fretting I had the top removed and the pump box in my hand. There was evi dent signs of decay in the leather, and bringing my natural ingenuity to bear upon it, hammered, and tacked, and cut, and pulled. until I faucied that I had attained perfec tion in my effort. "Mrs. Blifkins," says I, in my momenta-

ry satisfaction, "can you tell me the differnce betwixt a man who mends pumps and a prune?"

Of course she couldn't, and I told her that one was a plumb and the other was a plumber, whereat she was pleased to smile though. I thought, rather derisively. "Now we shall see," says I, putting in

the box, "the triumph of genius. Put in some water, Bridget, and as I pump you shall see the water flow." I manned the breaks, but in vain my ef-

point is rising, yet they learn the stage of painful sound—a sort of asthmatic wheez ing, like that of a percine quadrupied just expiring the action of a surgical operation upon his neck. WINCHESTER'S GENUINE Hypophosphites IN THE CURE OF CONSUMPTION.

I need only call the attention of all Consumptive surferers, whether in advanced or the incipient stage of the isease, to the following extract from a letter addressed to me by a physician of great experience, and extensive ractice in Chester Co., Pa. The voluntary evidence of professional men, such as that of Dr. Townsend, ought to convince the most skeptical of the extraordinary of ficacy of my preparation of Hypophosphites:

ficacy of my preparation of Hypophosphites:

Caltham, Pan, 3d Month, 26th, 1860.

Friend J. Winchestre:—\* \* Thirty-six persons have obtained the medicine from mo, twelve of whom have been under my own care. Five of their were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irriable cough, copious expectorations of a purelent character, night swears and emaciation. These cases were from one to three years standing. Auscultation and percussion feveloped sounds which, taken in connection with other symptoms, geve ovidence of a condition from which I have never; in seventeen years practice, seen a single case recover by any other treatment. \* \* Under the use of the Hypophosphites, all the bad symptoms ceased; they

ously. The other cases under my care were in the incipient The other cases under my care were my adaptive dage, and in them all symptoms and traces of the discuss have disappeared. Of those who were not under my care, I have not heard of a single patient who himself benefitted by the use of the remedy, although in f benefitted by the use of the remedy, althor ne of them the disease was 100 for advanced to

The Hypophosphites of Lime and Soda The Hypophosphites of Lime and Soda act with promptness and certainty in every stage of Consumption, and with invariable efficacy in all derangements of the nervous and blood systems, guestional debility, dyspepsia, asthma, rickets, famile complaints, spermatorthea, in all disorders dependent on imperfect or impaired antition, and in all cuses of local or constitutional debility. They increase the nervous or vital energy, relieve cough, check night swents, diminish expectoration, improve the appetite, arrest distributa, promote refreshing sleep, and create new and healthful blood. Proceedings of the City Council.

REGULAR MEETING. ) FRIDAY EVENING, May 11. Present-The Mayor and all the aldermen but Mr. Shelton.

Ald. Pease presented a list of city orders held by McKey & Bro., amounting to \$432, including the orders on which judgment was refused at the last meeting of the couneil, and asked judgment upon the whole Ald. Belton moved to refer the orders to

the finance committee. Mr. Michael McKey addressed the council,

He did not desire a reference, but wished the council to take definite action at once. If judgment was not confessed he had a remedy he should resort to. Ald. Bates moved that the city attorney

be instructed to join issue in a justice's court on these orders, and allow judgment to pass, excepting several orders on ward funds of the city. A long debate followed, in which several

members of the council participated, and in which the city attorney gave an opinion in favor of the power of the city to confess judgment in such cases.

The question being taken on the motion of Ald. Bates, it was decided in the negative af follows :

Alves-Ald. Bates and Pease.

Noes-Ald. Belton, Dickson, Pearce, Smith and Tallman.

Several accounts were presented and re

penditures from the gas fund during the present year to \$500. Laid on the table. Bonds were presented from L. Wilhur, J.

B. Ehle, J. H. & E. H. Gray, G. W. Wheelock and T. B. Wooliscroft, which were approved, and liquor licenses granted. Ald. Tallman voting in the negative. The finance committee reported in favor

of allowing R. T. Lawton to withdraw his account and itemize it. Leave granted.

The Mayor presented the report of the city treasurer of the names of the persons selling liquor in the city without a license. Two of those persons, it was stated, had discontinued the sale; several others had applied or were preparing to apply for a license, and the number of those selling in violation of the law is quite small.

Ald. Bates moved that the city att'y prosecute, under the state statute, every person selling without a license.

The council then adjourned.

JANESVILLE, May 12, 1860.

To the Editors of the Daily Gazette;

We desire through your paper to call the attention of the citizens and tax payers of Janesville, to the subject of the confession of judghment, by the city in favor of crediters applying for the same.

On the 5th day of May, we presented, to the common council for judgment, orders to the amount of \$270. The committee after an examination of the orders, reported to the council that they were correct, and, recommended that the city give us judgment. In the same report and recommendation, the committee reported a number of similar orders to the amount of over \$2,400 -payable to various persons, represented by Mr. Sleeper as their attorney, also recommending that the city give judgment upon

The council first divided the report, and by a vote of five against two ordered that judgment be allowed to pass for the \$2,400, to the various holders thereof; those voting in favor were Ald. Bates, Shelton, Smith and Pease; those voting in the negative

were Ald. Tallman, Bleton and Pearce. It was then moved that we have judgment upon our orders, which was lost by a vote of 5 to 2. All the aldermen present except Messrs. Bates and Pease voting against the motion. Messra. Shelton and Smith shift-

fag their position. Now, sir, here is a fair statement of the facts, and feeling as we do, that injustice and partiality has been shown by members of the council, we protest as tax payers and

business men of Janesville, against such WHY NOT IN YOUR CASE! such proceedings. If it was wise in the council to refuse us judgment we beg leave to say we cannot discover it. We offer to 6 A. M. 12 N. 6 P. M. WIND. WEATHER Pay the cost of obtaining the judgments, BOOT, SHOE OR GAITER, which was not done by the persons holding the \$2,400. We have this day commencorders, amounting to nearly \$500; and shall compel judgments with a large addition of costs. This mode of procedure could have been avoided, were we treated as all others making such applications have been.

In conclusion, Messrs. Editors, we desire to state without boasting, that we have all AND FOR CASH ONLY! ways striven to conduct ourselves as law and order men, always paying cheerfully our taxes for the support of the government, which we believe to be the duty of every good citizen.

We cannot look upon the whole proceed ings in any other light than that of proscription and partiality, and regret exceedingly having humbled ourselves so far as CUSTOM DEPARTMENT! making another application to the council, last night. We did so, at the earnest request of the Mayor, and also wishing to Always on Hand! save the city expense. All of which has to be borne in all cases by the tax paying Make to Order on Short Notice! portion of our community.

Respectfully yours, McKEY & BRO'S.

SUGAR CANE FOR STOCK .- A correspondent of the Wisconsin Farmer says: "The past year I raised two acres, which I have led to my stock, and am well satisfied that it will pay as well or better than any crop the farmer can raise for this purpose. By an election of officers will be held at their feeding my steers last fall six weeks on the hall on Monday evening next, May 14th, at cane, I could outsell my neighbors five dollars per head."

Life Insurance.

Those desiring this safest and cheapest protection for their families, can seeme It in one Wisconsin company. It has already become, in reality, a state institution having agents and patrons among the best business met in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other easters

While duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedent-e.l," we would cordially invite all our citizens to call at the office, southwest corner of Main and Wisconsin streets, and examine for themselves. S. S. DAGGETT, President.

A. W. Kellogo, Secretary. A. W. Arribad, Sectority, produce dealers, and Capt. Goo. S. Dodge will receive applications for insurance in this home company, and will also be happy to give information us to the condition thereof, to any one desirous of being informed, in Janesville.

We have, for several years past deadt largely in BURNING FLUID, and have always, thus far, kept fully up to the times, in any improvements made in its manufacture. Nearly a year ago, in an appeal in according to the more general use, based upon the fact that the raw material from which it is made, is mainly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, as now made by those who understand the business in which they are rangaged. That injury from he use was either the result of gross carelessuess, or of undue darm caused by a belief in its explosive power," See. Since then we have unanufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered are this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, no safer, better or sinore agreeable light can be produced. As we are indebted to no traveling "Paor, Guers—Off for the high state of perfection attained by us in its manufacture, we are, as usual, prepared to offer our Fluid at the LOUFSET MARKET FIGURES, and to guarantee entire smissaction in its use, or the money refunded.
